HOW TO RECEIVE THE TRANSMISSION & ACTIVATION

- **Experiencing Cards & Meditation Audio File Together:** it is best to view the cards while simultaneously listening to the vocal language communication audio file (but they can also be experienced separately in any way that your wish to utilize these energy tools).

THE AUDIO FILE INCLUDES THE FOLLOWING

A. Introduction about the cards & Light Language

B. I speak through each of the 13 cards the same way

(stating the title of each so you can follow with the physical cards)

Repeat this process with each card:

- **Connect with the imagery:** Look at the card while listening to the information about that card (meditate on any thoughts or feelings it may evoke in you)--*I offer details about each artwork, and a short message about each card from the specific Guide .*
- **Receive the energy transmission:** View the cards in the order of the PDF file, while listening to the audio file

(close your eyes and let yourself be taken on a multidimensional journey)--*I read each card message, then transmit a unique Light Language expression related to that card.*

C. Final message from me in Light Language

PERSONAL PREPARATION (before working with the cards/audio)

- Take a quiet moment outside of your daily life hustle & bustle in a quiet space to best "receive" the energy in these messages (and listen to the audio file on headphones).
- Understand that you may feel subtle or more intense vibrations in your system; your mind may wander, and you may have memory activations.
- Experiencing this work is a multidimensional journey, healing, activation and inspiration. Anything you experience is OK. There is a high dimensional energy I engage with, receive this information from and transfer to you.
- You may not consciously or literally understand the Light Language spoken or know how to conceptually view or interpret the artwork—but you may have a certain feeling or knowing that you can connect with this Light Language, and may begin to feel more of your unique Energy Frequency Signature expression during this process.

WHEN DONE

- Please take time to rest for a moment and fully integrate the experience. Drink water, get grounded and rebalance yourself before doing your next action. These files carry strong vibrations to lift you and its important get be grounded afterward.

ABOUT THE ACTIVATED LIGHT LANGUAGE ARTWORK

- Shakara is a metaphysical artist working on many realms and dimensions, bring in the Codes of Light & Creation into our current 3D world. During the artwork creation, Shakara transmitted live Light Language verbally & co-created encoded message vibrations that were energetically embedded into the artwork with her Higher Self & various Star Guides. Additionally, some of the artwork includes galactic script writing related to the image or codes brought through in the artwork.

INTERACTING WITH THESE CARDS HELPS REMEMBER WHO YOU ARE & YOUR TRUE SOUL NATURE

- **How you feel & what you interpret in this Oracle Card Bundle is the gift to you**—the meaning and understanding of the Light Language & activated art may be known or unknown to you, it may be a subtle feeling, or it may be a full energetic packet download that will take some dreamtime and daily life to reveal itself to you. This is ok, it is part of the process of REMEMBERING.
- **We all must remember that we have the knowing inside ourselves** about exactly who we are and our infinitely powerful capabilities and possibilities of what we can manifest in the world.
- **You don't need to seek answers outside of yourself** as we have been conditioned and taught to do for so long—you have been “coded” in the past with all the information you need to know about how to live, survive, be, exist, create, engage, accelerate, manifest, activate and collaborate in the world. That is why, just like your engagement with other works of art, spiritual practices, thoughts, concepts and belief systems, it is extremely important to listen to your own voice—especially the meaning you personally intuit from any kind of exchange and the value you give to anything that happens in your life.
- **You “receive” this material multidimensionally**—it validates and triggers something inside of you to find your own meaning and interpretation in it. Shakara feels that this will help you activate unique DNA coding dormant in your system and shift your multidimensional thinking to a higher vibration.

ABOUT THE DISTILLED MINI-MESSAGES (On The Cards)

The distilled messages on each card are excerpted mini-messages from many detailed downloads Shakara received from her Guides & Higher Self on diverse themes.
